The Winter Cup Series will be decided over three (3) meetings unless unforeseen circumstances force the cancellation of events.

To be eligible for the Winter Cup, competitors **must compete in all meetings** for the year designated as Winter Cup rounds.

Trophies will be awarded to all category winners and an overall winner.

Scoring for those eligible for the Winter Cup Series is as follows;

- the competitor's best time for the day is divided by the appropriate class record at the beginning of a competition
- this is then multiplied by 100 to obtain a percentage figure - e.g. John Smith records a best of 38.34 sec. and competes in a class where the current record is 37.21 sec - his points score for the day is thus, 38.34 divided by 37.21 X 100 i.e. 103%.
- An average percentage for all three rounds is then calculated
- A competitor scoring 100% would have recorded a best time equal to the class record, less than 100% means that the class record has been broken, more than 100% means a slower time than the class record.
- The competitor with the lowest average percentage in each class is deemed to be the class winner
- The competitor with the lowest average percentage overall is deemed to be the winner of the Winter Cup.
